

Rudy van Sloten

Freelance Cloud Architect / Platform Engineer

PROFESSIONAL EXPERIENCE

INTERIM CLOUD LEAD, HYFEN

March 2024 – Present, Amsterdam, NL

Lead a small team migrating Hyfen onto a modern Azure platform.

- » Designed and implemented Azure/Kubernetes landing zones
- » Drove the move from manual deployments to Terraform + GitHub Workflows, with Helm for application deployments
- » Architected a scalable hub-spoke, multi-tenant model
- » Replaced commercial tools (VPN, monitoring) with open-source alternatives
- » Coached engineers on automation patterns (Terraform, GitHub, Helm, CI/CD)

SENIOR CLOUD ARCHITECT, AHOLD DELHAIZE

January 2024 – July 2024, Zaandam, NL

Architected Azure environments for back-office projects and software integrations.

- » Redesigned the landing-zone architecture
- » Tightened deployment, maintenance, and monitoring standards
- » Improved documentation and lifecycle management
- » Coached the team on safer cloud practices

SENIOR CLOUD ARCHITECT, NORDCLOUD (IBM)

April 2022 – December 2024, Amsterdam, NL

Consulted for Heineken, Kraft Heinz, Volkswagen, and other enterprise clients. Focus on Microsoft Azure and Kubernetes, with regular liaison to Microsoft engineering teams on upcoming technologies.

- » Designed and implemented Azure landing zones
- » Built infrastructure templates and pre-sales architecture for various technologies
- » Taught DevOps practices and lifecycle management
- » Ran POCs for containerization, monitoring, networking, and Azure
- » Coached engineers on Terraform, Ansible, and CI/CD

AZURE TEAM LEAD, NORDCLOUD (IBM)

May 2023 – Present, Amsterdam, NL

Lead a small team of cloud engineers and Azure solution architects: career development, conflict resolution, and advocacy on their behalf.

DEVOPS ENGINEER, FUNDA

October 2020 – March 2022, Amsterdam, NL

Maintained and improved Funda's .NET ecosystem on AKS, supporting developer teams on CI/CD, monitoring, and adoption of serverless, distributed caching, databases, storage, and secrets management. Ran knowledge-sharing/Q&A sessions, coached juniors 1-on-1, and acted as primary liaison with vendors.

Milestones:

- » Migrated traditional datacenter setup to Microsoft Azure
- » Migrated DC/OS (Apache Mesos) workloads to Kubernetes
- » Became a Certified Kubernetes Administrator

SOLUTIONS ARCHITECT, TRUE B.V.

May 2018 – September 2020, Amsterdam, NL

Pre-sales architect advising clients on complex software and design problems; liaison across teams. Laid the groundwork for a new Cloud Engineering team using GitLab, Terraform, Ansible, PowerShell, and Python.

Milestones:

- » Pushed adoption and automation of Microsoft Azure
- » Built out Datadog as the monitoring solution
- » Initiated and lead the cloud-native engineering team (counterpart to the datacenter-focused engineering teams)
